Use Part I to determine the amount of a deductible casualty or theft loss of property, other than trade, business, rental, or royalty property, provided only one casualty or theft occurred during the taxable year and any related insurance or other compensation did not exceed the property's cost or other basis, as adjusted.

Use Part II to determine the amount of a casualty or theft loss or gain if the circumstances mentioned in Part I are not applicable. For example: (1) if there is more than one casualty or theft occurrence; (2) if there is a mixture of casualty or theft losses and gains; or (3) trade, business, rental, or royalty property is involved. If Part II is used, go to Part III, on page 2, first.
